

CABLE GRAB

Cable Grabs are designed to provide fall protection for workers ascending or descending from a variety of vertical structures.

Stainless steel construction allows unit to be durable, light weight and corrosion resistant. Cable design provides hands-free operation by automatically following the user and allowing maximum freedom of movement. Detachable design allows the user to easily attach or remove the device anywhere along the 8mm or 10mm galvanized or stainless steel cable.

KEY FEATURES

- Lightweight and easy to use
- Detachable from the cable
- Stainless Steel corrosion resistance

Code **CG**
