

# IDL DESCENDER

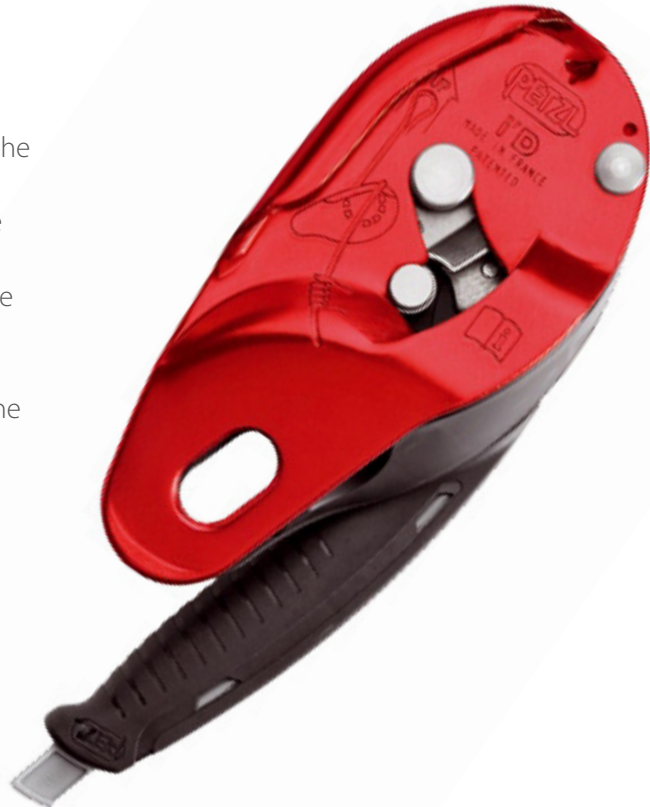

This descender is designed to aid a rescuer in the retrieval of a person.

The multifunction handle allows the user almost complete freedom to unblock the rope to allow hands-on descent. The anti-panic function is engaged if the user pulls too strongly on the handle.

## KEY FEATURES

- Designed for Rescue
- Multifunction handle allows user to:
  - Unblock the rope and control descent with the hand on the free end of the rope
  - Move more easily on horizontal or low-angle terrain
  - Get into position without having to tie off the device
- Anti-Panic function is engaged if the user pulls too strongly on the handle and stops the descent automatically
- Suitable for 13mm rope
- Pivoting cam facilitates taking up the slack in the rope, can be used as a reversible haul system
- Lowers loads up to 272kg

Code	IDL
